

Two Student Placement / Internships

September 2025 – July 2026

[The Guernsey Sports Commission](#) is looking for expressions of interest for two potential placements/ internships from students studying, or who have graduated from, a sport science, coaching, teaching or related degree. The placements form a part of the Commission's work in schools, performance sport and our wider sporting community.

The placements would come with a maintenance grant of £10k. All the placements would be for one academic year with the opportunity to gain additional earning opportunities at weekends and in the holidays.

During the placement the student(s) would be supporting Sports Commission staff and teachers with the delivery of fundamental movement skills, school sport and community-based sport programmes.

In addition to the role in schools there is a choice of two distinct opportunities for students to specialise;

1. Sport Science placement with performance analysis focus – In previous placements our students have supported performance analysis solutions for Guernsey FC, Guernsey Netball and Guernsey Cricket overseen by qualified PhD level sport scientists. Students would also gain access to mentoring, continual professional development opportunities and formal qualifications through the Guernsey Sports Commission and its member sports.
2. Community Sport – In 2025/26 the Sports Commission will be looking to expand its offer of accessible activities available to the wider community. There will be a particular focus on supporting Guernsey Mobility Let's Go, a local group focused on providing inclusive activities to the local community.

There is also the scope for interested students to undertake self-directed project work given the relevant stakeholders being satisfied.

Minimum requirements at commencement of the role would include a minimum UKCC2 or equivalent coaching qualification in a sport, DBS check and an in date safeguarding qualification. The Guernsey Sports Commission will be able to provide support to individuals, if required, in acquiring these qualifications.

For further information please contact Jeremy Frith. Anyone interested should also send their CV's and a covering letter to Jeremy Frith by email or post.

The Guernsey Sports Commission is also willing to connect potential applicants to past students who have undertaken this unique and sought after placement. A number of these students have gone on to employment directly through this placement.

Closing date: Friday 7th March 2025
